

ABOUT DRY GRASSES

(Nuri Bilge Ceylan, 2023, 197 min, Turkey, Turkish with English subtitles, DCP)

"About Dry Grasses is just as much about the harshness of a landscape, which mirrors the spirit of its inhabitants, as it is about a barrage of much more elusive things, rendered tangible by an incredible aesthete's hands: jealousy, shame, intellectual mediocrity, and patriarchy's most vicious of tacit pacts."
